MAXXGRIP® GLADHANDS

- The built-in handle provides leverage for safer & more complete connections.
- The solid body design of the MAXXGrip® eliminates the potential leak point between a gladhand & grip.
- Anodized finish provides superior protection against corrosion.
- Color-coded clamps for easy line I.D.

SONOGRIP® ABS CABLE

- Often imitated, but never duplicated: The Sonogrip® provides long-lasting, corrosion-free connections.
- Ultrasonic welding of the terminals & the solid-molded plug body exclude corrosive moisture.
- The angled plug on one end reduces cable stress at the higher-mounted receptacle.
- MADE IN THE USA!
