RETRACTABLE SAFETY BARRIER REELS

Our Retractable Safety Barrier Belt Reel is perfect for industrial facilities, warehouses, construction sites, and other environments where visibility and impact protection are essential. It's especially useful for helping to maintain order and reduce risk of accidental contact. A compact design with a smooth retractable mechanism for hassle-free use and easy storage.

- Woven nylon webbing for a long working life
- Fully enclosed heavy-duty case to protect the tape and reel mechanism
- Lightweight and portable
- UV resistant polypropylene case
- Stainless steel safety catch included
- Supplied with mounting bracket and carry handle
