RAPID-RELEASE SERVICE GLADHANDS

REDUCES DRUM WEAR FOR MAINTENANCE SAVINGS!

CORROSION RESISTANT

An anodized finish for superior corrosion protection is standard on all Rapid-Release Gladhands

FEATURES & BENEFITS

- Releases trailer brakes up to 50% faster than standard methods
- Reduces wear on drums which results in maintenance savings
- Prevents in-city trailer bounce
- Available in standard, 37.5° mount, and swing-away styles
- Anodized aluminum finish for superior protection against corrosion
- Designed to be used with both ABS and non-ABS brake systems
- Meets SAE J318 specifications
- Includes polyurethane seal with or without filter
- For use on trailers only

Swing-Away Style:

- 180° swivel rotation permits optional air line entry from either the bottom or back port
- Gladhand will return to the closed position when not in use to help keep dirt and debris from entering the air brake system
